Climate march

Our students investigated were and how the sustainability of Roermond can be improved and bundled their ideas. Our students made banners with drawings and catchy slogans. We organised a climate march in order to raise more awareness about the climate, sustainability and climate change. We walked from our school to the city Hall, which takes about 30 minutes. At the City Hall we presented our ideas to the counsellor of Roermond, Rens Evers.

In een klimaatmars kwamen vandaag de leerlingen van het Broekhin in grote getale bijeen om aandacht te vragen voor het klimaat. Met veel lawaai hebben ze de 'twijfelbrigade' een poepie laten ruiken! #ClimateChangelsReal #NoHoax
