Theme: Reuse, Reduce, Recycle

lesson taught at 25-10-18

lesson taught by Kelsy Schreurs

<b>Starting situation:</b>	<p>Students from ages between 10 and 17 and from 6 different countries will follow the lesson. They should know about the English language but it is not known how well they speak and understand the English language.</p> <p>It is assumed that the students all heard about certain climate issues worldwide and in their own country specific.</p> <p>Students “know” each other for 3 days. Some of them may have never spoken to one another before the lesson.</p>		
<b>Goals:</b>	<p>At the end of the lesson:</p> <ul style="list-style-type: none"> <li>- The students are aware of climate change in the world.</li> <li>- The students are aware of the importance of sorting garbage</li> <li>- The students can properly sort out their own garbage.</li> <li>- The students can work cooperatively with students from different countries which they don’t know well/at all</li> <li>- The students know how to reuse different kinds of materials</li> <li>- The students know how to reduce their (material) garbage</li> <li>- The students know how paper, plastic and metal can be recycled</li> </ul> <p>Challenges:</p> <ul style="list-style-type: none"> <li>- Working cooperative with students they don’t know (well)</li> <li>- Following a lesson in English</li> <li>- Talking English to one another during the cooperative exercise</li> <li>- Talking English to the teacher when he/she asked something</li> </ul>
